Summary

Results-driven **Business Analyst** with a **Bachelor's in Computer Engineering** and a **Master of Science in Business Analytics**. Experienced in analyzing data, optimizing workflows, and driving data-informed decision-making to improve operational performance and user outcomes.

Professional Experience

Business Analyst | WiddyUP | 2025 - Present

- Analyze fundraising performance and user engagement data to identify trends, optimize campaign outcomes, and support data-driven decision-making
- Collaborate with cross-functional teams to improve product workflows, enhance user experience, and track key KPIs (active participants, conversion rates, campaign performance).

Technical Support Specialist (Documentation & Systems) | Grand Canyon University | 2024 - 2026

- Maintain and update internal websites, documentation platforms, and system procedures to ensure accurate information and support organizational workflow
- Troubleshoot technical and system issues while collaborating with IT and cross-functional teams to improve system usability, data accuracy, and operational efficiency.

Academic Advising Technician | Glendale Community College | 2023 - 2024

- Scheduled and managed 500+ student appointments via Con-Ex Cranium, SIS, and multiple communication channels, ensuring timely academic support.
- Troubleshot software/equipment and evaluated SIS advisor notes to determine next steps, improving service efficiency and student outcomes.

Project Manager | CashflowNFT (Fintech Platform) | Cyprus | 2021-2023

- Coordinated fintech projects, improving onboarding efficiency by 30% through process automation.
- Delivered reporting and analytics support to optimize project performance.

Web Development Intern | Atabilisim | Cyprus | 2021 - 2021

- Assisted in developing and maintaining web applications by implementing front-end updates, troubleshooting technical issues, and improving overall website functionality using HTML, CSS, and JavaScript.
- Collaborated with cross-functional teams to test software, resolve user-reported issues, and support system improvements, contributing to a more reliable and user-friendly product.

Technical Skills

- **Analytics:** Data Mining, Predictive & Prescriptive Analytics, Forecasting, Regression, Classification, Decision Trees
- **Visualization:** Tableau, Power BI, Excel (Pivot Tables, Dashboards, Power Query)

Programming: SQL, Python, R, C++, JavaScript, HTML, CSS

Tools: KNIME, Microsoft Office Suite, Google Suite, Adobe, CRM (ConexED, Salesforce, HubSpot), Zendesk

Project Management: Workflow Automation, Agile, Stakeholder Engagement

Projects

- **Predictive Client Retention Model** (*Python, Excel, Tableau*) – Developed a machine learning model using Logistic Regression to predict customer churn with **91% accuracy**, providing actionable insights for retention strategies.
- **Business Intelligence Dashboard** (*Power BI, Tableau, Excel*) – Designed interactive dashboards integrating multiple data sources to visualize KPIs, operational performance, and business trends for data-driven decision-making.
- **VentIt – Anonymous Social Networking Platform** (*JavaScript, HTML, CSS*) – Developed a full-stack web application that enabled anonymous user interaction while ensuring privacy through automated identity protection and responsive design.

Education

Master of Science in Business Analytics | Grand Canyon University | Phoenix AZ | 2026

Bachelor of Science in Computer Engineering | European University of Lefke | Cyprus | 2022

Certifications

- Lean Six Sigma Yellow Belt | GoLeanSixSigma (GLSS)
- Microsoft Certified: Power BI Data Analyst Associate (*In Progress*)
